PROFESSIONAL SUMMARY

Full Stack Developer experienced in building end-to-end web and mobile-backend solutions. Proficient in **NestJS**, **Next.js**, and **MERN Stack** with a strong emphasis on secure API integration, **Webhooks**, and database optimization. Expert at deploying scalable systems on **AWS (EC2, RDS, S3)** and managing frontend deployments across **Vercel**, **Hostinger**, **SiteGround**, and **NameCheap**. Skilled in implementing advanced features like **Stripe** payment gateways and automated **CI/CD workflows**, while utilizing modern AI tools to accelerate the software development lifecycle.

TECHNICAL SKILLS

- **Frontend :** HTML5, CSS, JavaScript, React.js, Next.js, Bootstrap, Tailwind CSS, MUI
- **Backend:** NodeJS, ExpressJS, NestJS, Strapi (CMS), TypeORM, Webhooks.
- **Database:** PostgreSQL, MySQL, MongoDB, Database Design.
- **Cloud & DevOps:** AWS (EC2, RDS, S3), CI/CD Pipelines, GitHub Actions, Server Deployment.
- **Payments & Hosting:** Stripe API, Firebase Hosting, Vercel, Hostinger, SiteGround, NameCheap.
- **Tools:** Git, GitHub, Postman, VS Code, Unit Testing, & Performance Optimization.

EXPERIENCE

Full Stack Developer

Futurbyte

- **Duration:** April 2025 to Present
- **Role:** Junior Full Stack Developer
- **Location:** Karachi
- **Responsibilities:**
 - Handled debugging errors and resolved technical issues, improving overall application stability.
 - Developed backend systems using Node.js, Express, PostgreSQL, and TypeORM to support scalable web applications.
 - Worked on the backend of the **Lynx Net Mobile App**, successfully launched on both **App Store** and **Play Store**.
 - Created the **Chaps & Co** project, implementing backend logic and optimizing database performance.
 - Contributed to **multiple frontend and backend projects**, ensuring clean architecture and seamless integration.
 - Created and maintained backend services for both app and admin panel functionalities.
 - Integrated RESTful APIs into the admin panel, enabling dynamic data management and improved user interaction.

- Collaborated closely with senior developers, actively learning best practices in full-stack development and contributing to team success.

MERN Stack Developer Encoders

- **Duration:** July 2024 to March 2025
- **Role:** MERN Stack Developer
- **Location:** Karachi
- **Responsibilities:**
 - Handled debugging errors and resolved technical issues, improving overall application stability.
 - Converted PHP-based websites to the MERN stack, incorporating responsive design for enhanced user experience.
 - Collaborated with senior developers to implement best practices and optimize project performance.
 - Developed and maintained RESTful APIs using Node.js and Express.js to support front-end features.
 - Integrated front-end components with back-end services, ensuring seamless functionality and data flow.
 - Assisted in deploying applications and managing the development workflow using version control tools like Git.

Frontend Developer Carrotar (NIC Startups)

- **Duration:** March 2024 to June 2024
 - **Role:** Frontend Developer
 - **Location:** Karachi
 - **Responsibilities:**
 - Contributed to front-end development projects, specializing in HTML, CSS, and JavaScript.
 - Collaborated closely with team members to create responsive and visually appealing user interfaces.
- Utilized frameworks such as React.js and Next.js to build interactive components and optimize performance
